

SCIENCE And The SCRIPTURES
CREATION vs. EVOLUTION - Weakness of Evolution

Ray Mondragon

I. The Introduction

II. The Models

A. The **Evolution** Model

B. The **Creation** Model

III. The Weakness of Evolution

A. The **Mechanism** of **Mutations**

1. They are Rare
2. They are Unpredictable
3. They are Harmful
4. There is Genetic Burden
5. They are Pathological
6. There is Rejection
7. There is Information Loss

B. The **Superficial Evidence**

1. The Comparative Anatomy
2. The Microevolution
3. The Vestigial Organs
4. The Embryology
5. The Anthropology

C. The **Destroying Evidence**

1. The Fossil Record
2. The Conclusion
